1 Preface

The link of BIUT Web Wallet is <http://wallet.biut.io> . The following is a guide on how to use the Web wallet.

2 Brief Introduction

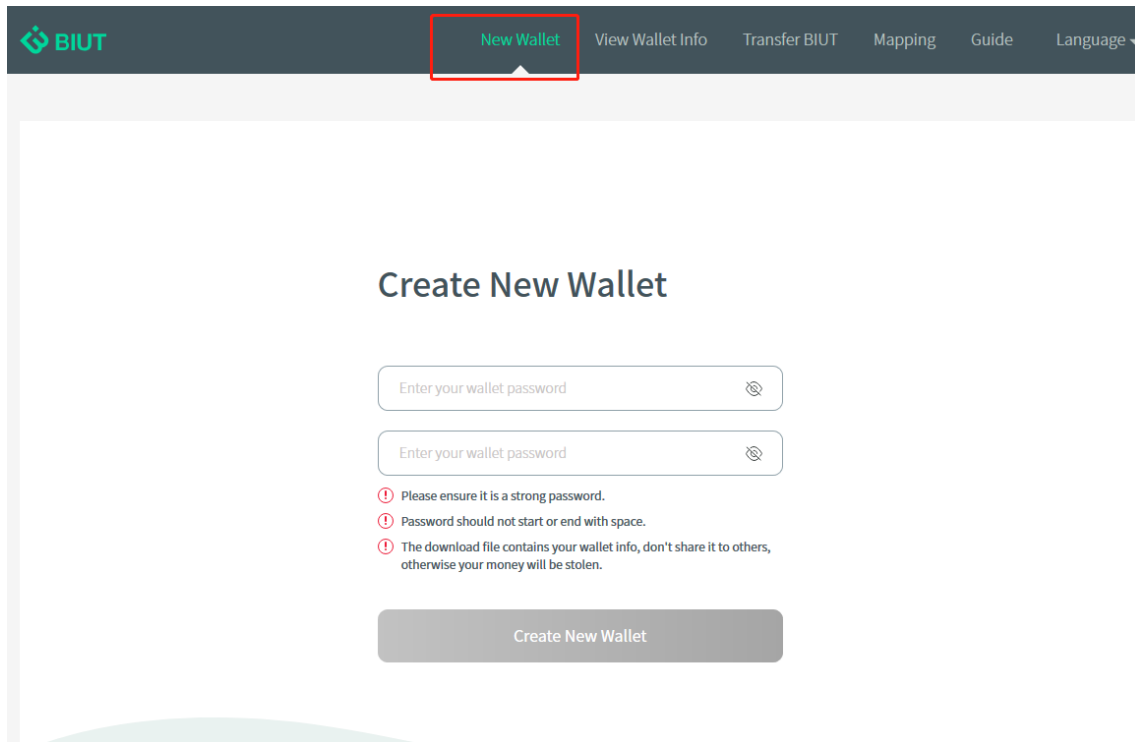

Homepage includes: create new wallets, view wallet information, mapping, sending BIUT, For any questions, please email us to the official email address: alanlee@secblock.io

Note:

- There are two ways to unlock the wallet each time:
 - a Keystore + wallet password
 - b Import the private key
- Every time you unlock your wallet, you will need to log in again. In fact, Keystore + Wallet Password = Enter the private key.
- Keystore and Keystore passwords ensure that you have the right to operate the wallet assets, both of which are indispensable for safekeeping; private keys (the highest authority, all rights to operate the assets of the wallet) must not be lost or inform others, Otherwise, you will lose the ownership of the wallet, resulting in the risk of theft or loss of assets.

This guide will briefly describe how to create a new wallet, view wallet information, map, transfer BIUT.

3 Create new wallet

The screenshot shows the BIUT website's 'Create New Wallet' page. The top navigation bar is dark grey with the BIUT logo on the left and links for 'New Wallet', 'View Wallet Info', 'Transfer BIUT', 'Mapping', 'Guide', and 'Language' on the right. The 'New Wallet' link is highlighted with a red rectangular box. Below the navigation bar, the page has a light grey background. In the center, there's a section titled 'Create New Wallet'. It contains two identical password input fields, each with the placeholder text 'Enter your wallet password' and a small eye icon for toggling visibility. Below the input fields, there are three warning icons (red circles with exclamation marks) followed by text: 'Please ensure it is a strong password.', 'Password should not start or end with space.', and 'The download file contains your wallet info, don't share it to others, otherwise your money will be stolen.' At the bottom of this section is a grey button labeled 'Create New Wallet'.

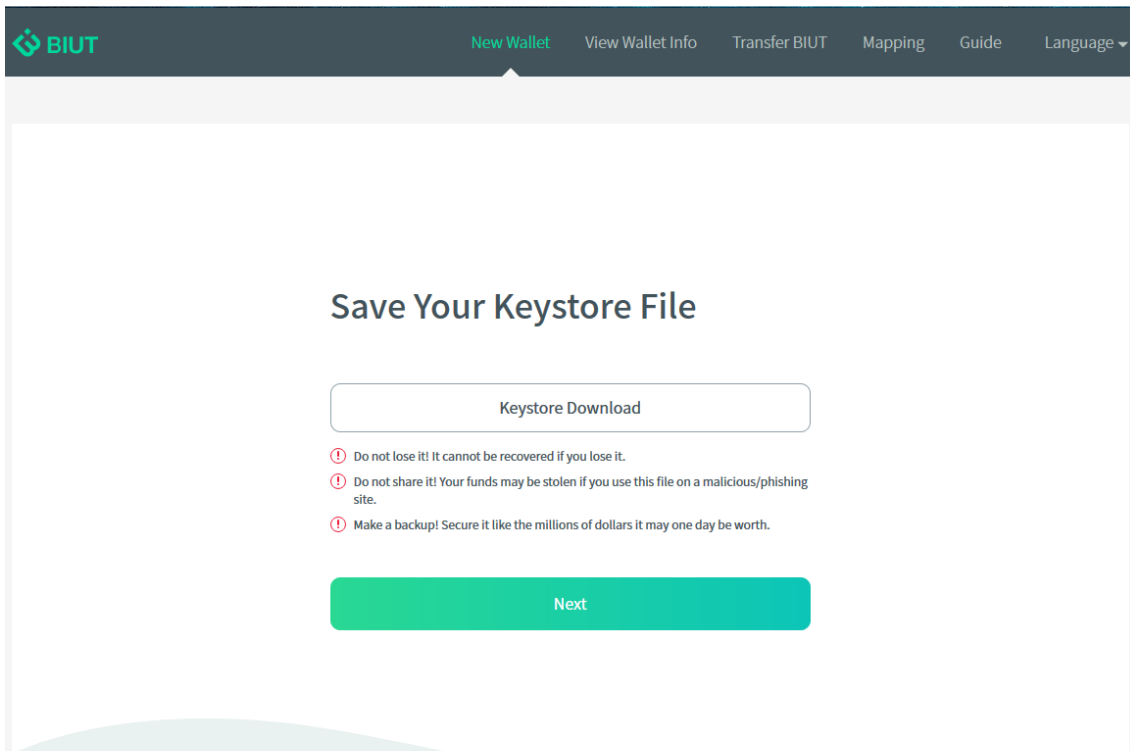

1.Click on new wallet in the navigation bar.

2.Enter your wallet password

Password should not start or end with space, at least 8 characters or more.

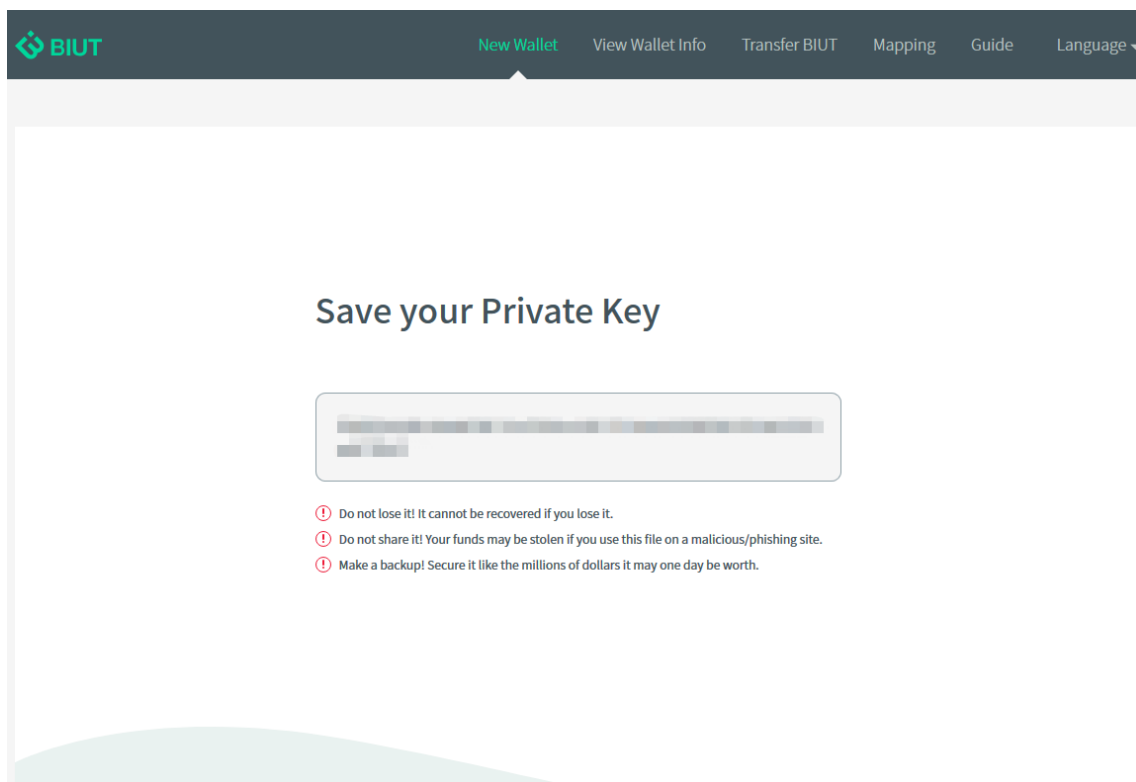

3.Download your Keystore File

Please keep the Keystore file and password in a safe place. It cannot be recovered if you lose it.

4. Click on the Next

5. Save your 64-character private key (consisting of letters and numbers)

The private key gives you the highest authority to operate the wallet, and it can help modify and reset password or generate a new Keystore!

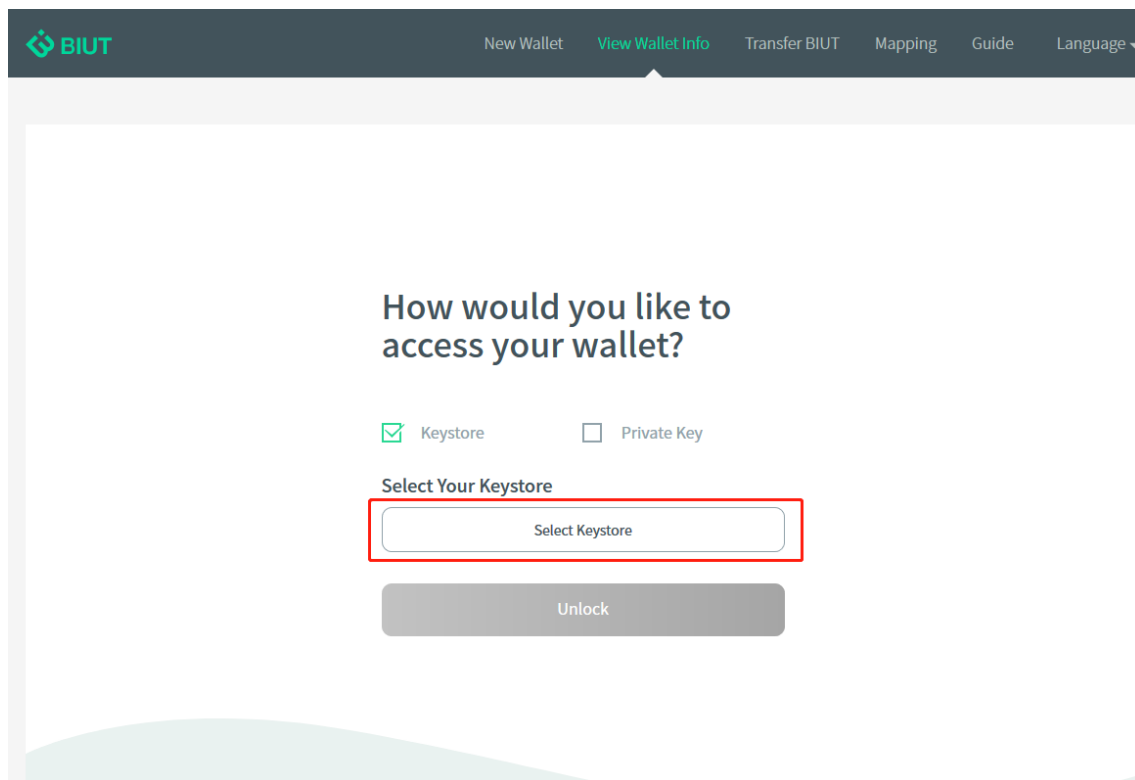

6. The wallet is successfully created.

4 View wallet information

1. Click on view wallet info in the navigation bar.

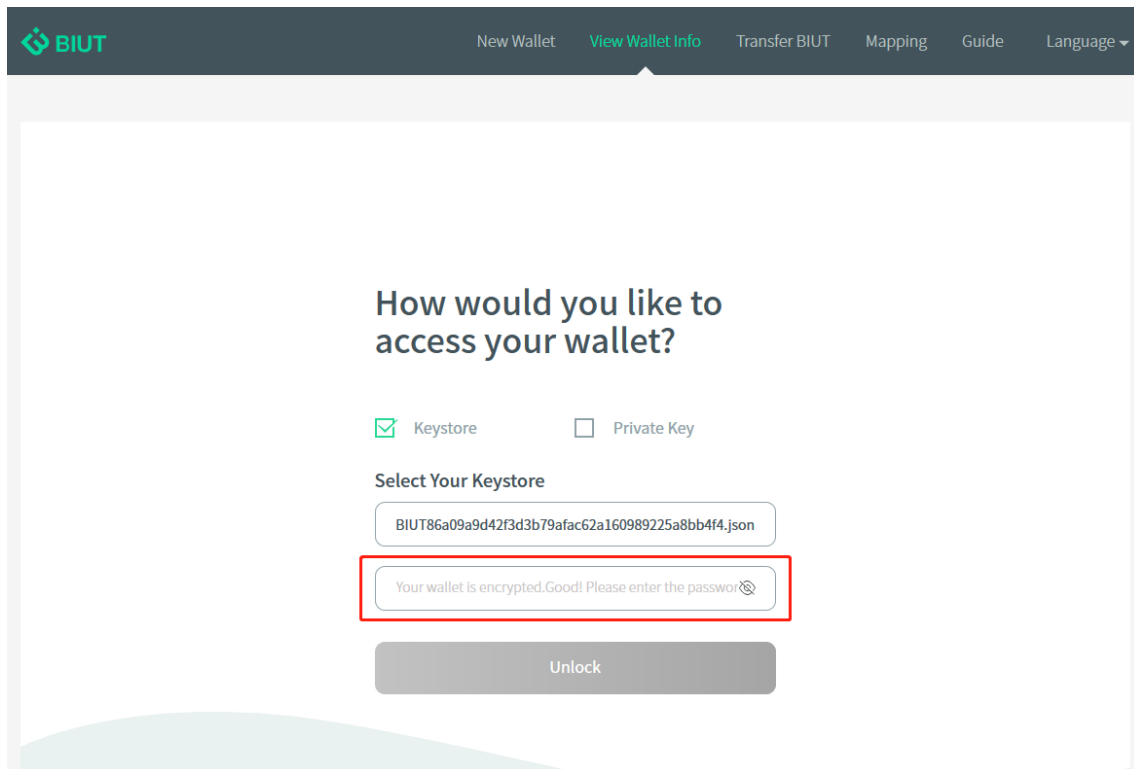

2. Unlock the wallet (the following are two ways to log in)

- Select Keystore
 - a Click on Select Keystore to import the saved keystore file.

The screenshot shows the BIUT wallet interface. At the top, there is a navigation bar with the BIUT logo and several links: New Wallet, View Wallet Info, Transfer BIUT, Mapping, Guide, and Language. The main content area has a heading "How would you like to access your wallet?". Below this heading, there are two radio button options: "Keystore" (which is selected) and "Private Key". Under the "Keystore" option, there is a sub-heading "Select Your Keystore" followed by a button labeled "Select Keystore". This button is highlighted with a red rectangular box. Below the "Select Keystore" button is a grey button labeled "Unlock".

b Enter Keystore password

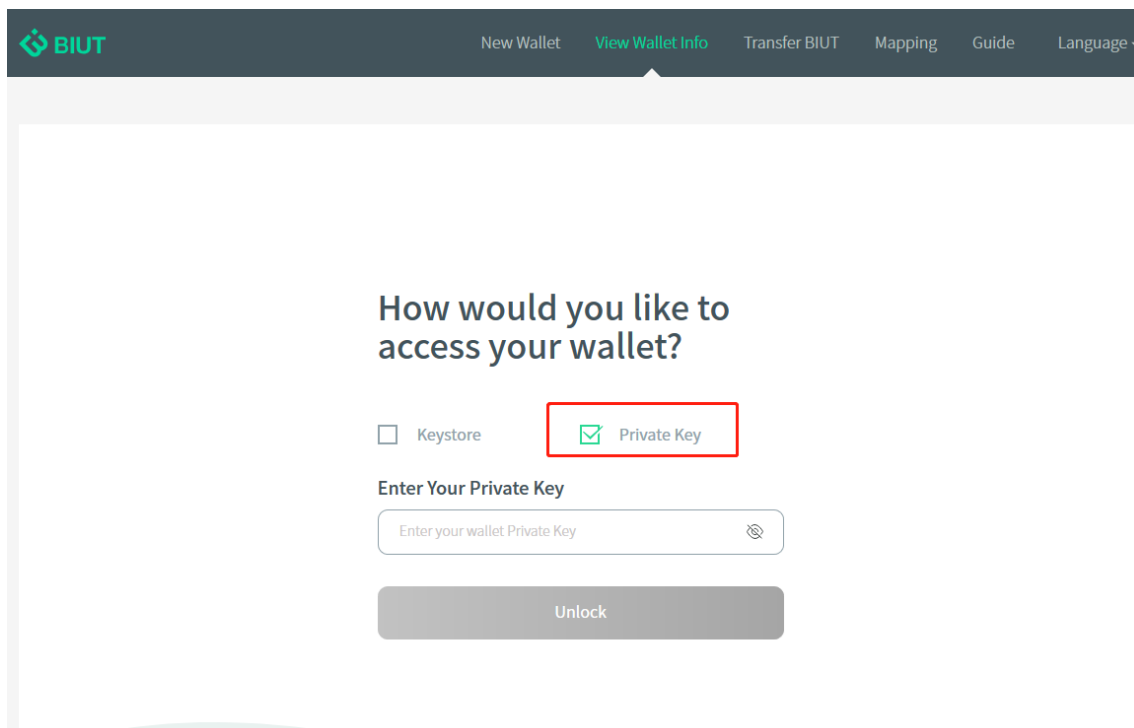

The screenshot shows the BIUT wallet interface. At the top, there is a navigation bar with the BIUT logo and links for 'New Wallet', 'View Wallet Info', 'Transfer BIUT', 'Mapping', 'Guide', and 'Language'. The main heading is 'How would you like to access your wallet?'. Below this, there are two radio button options: 'Keystore' (which is selected with a green checkmark) and 'Private Key'. Under the 'Keystore' option, there is a text input field containing a JSON file path: 'BIUT86a09a9d42f3d3b79afac62a160989225a8bb4f4.json'. Below this, there is a red rectangular box highlighting a message: 'Your wallet is encrypted. Good! Please enter the password'. At the bottom, there is a grey 'Unlock' button.

c Unlock the wallet

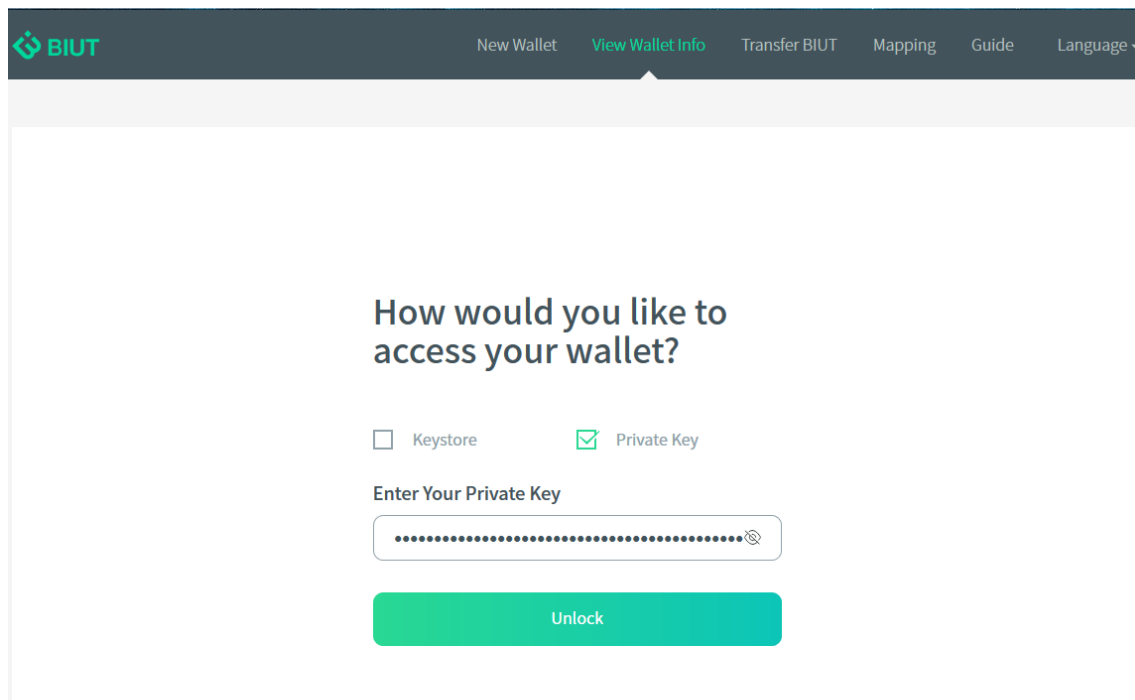

- Select private key

a Click on Private Key

The screenshot shows the BIUT wallet interface. At the top, there is a navigation bar with the BIUT logo and links for 'New Wallet', 'View Wallet Info', 'Transfer BIUT', 'Mapping', 'Guide', and 'Language'. The main heading is 'How would you like to access your wallet?'. Below this, there are two radio button options: 'Keystore' and 'Private Key' (which is selected with a green checkmark and highlighted by a red rectangular box). Under the 'Private Key' option, there is a text input field with the placeholder text 'Enter your wallet Private Key'. At the bottom, there is a grey 'Unlock' button.

b Enter your private key

3. Please ensure that the private key has been backed up.

4.If the previous Keystore file and password are lost, you can download the new keystore file and password

5 Mapping (Transfer SEC as ERC20 token to BIUT mainnet token)

1. First transfer the SEC in the ETH wallet to our official ETH address (0xc7c1CA6181C222F5D83Ec6814c28db7da73409Bb), and waiting for the transfer to succeed.

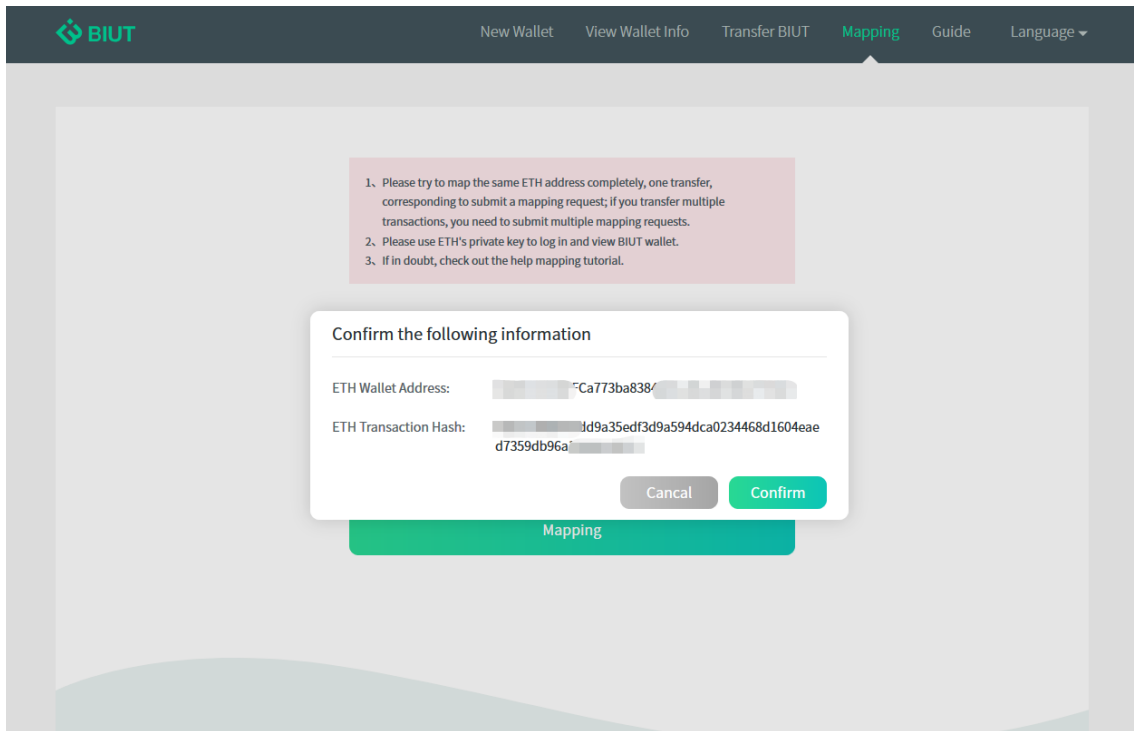

2. Click on Mapping in the navigation bar.

The screenshot shows the BIUT website's 'Mapping' page. At the top is a dark navigation bar with the BIUT logo and links for 'New Wallet', 'View Wallet Info', 'Transfer BIUT', 'Mapping' (which is highlighted), 'Guide', and 'Language'. The main content area has a light gray background. At the top of this area is a pink instruction box with three steps: 1. Please try to map the same ETH address completely, one transfer, corresponding to submit a mapping request; if you transfer multiple transactions, you need to submit multiple mapping requests. 2. Please use ETH's private key to log in and view BIUT wallet. 3. If in doubt, check out the help mapping tutorial. Below this are two input fields: 'ETH Wallet Address*' and 'ETH Transaction Hash*'. The first field contains the address '0xc7c1CA6181C222F5D83Ec6814c28db7da73409Bb'. The second field contains the hash '0x3d9a594dca0234468d1604eae'. At the bottom of the form is a large green button labeled 'Mapping'.

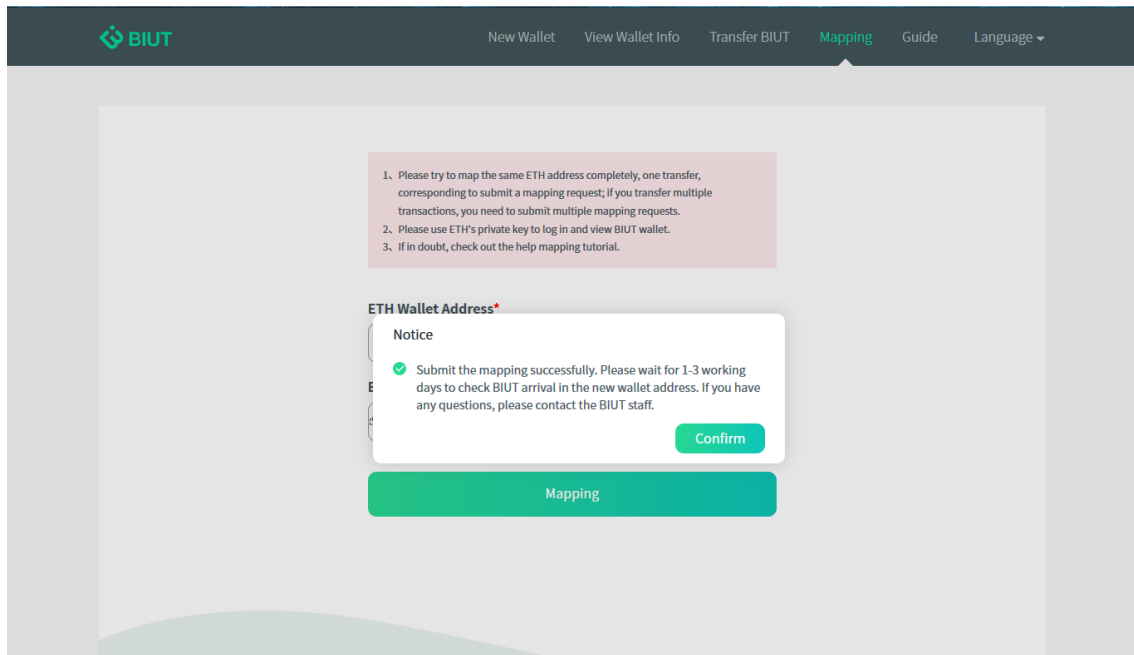

3. Enter the ETH address of the first step and the transaction hash of the transfer.

4. Click on mapping.

5. Please confirm the above information: Cancel if there is an error; Confirm if it is correct.

6. This page shows “operate successfully”, Please wait 1-3 business days, then check whether there is the same amount of BIUT in the mapped BIUT wallet address after the token swap, Log in using the original ETH address.

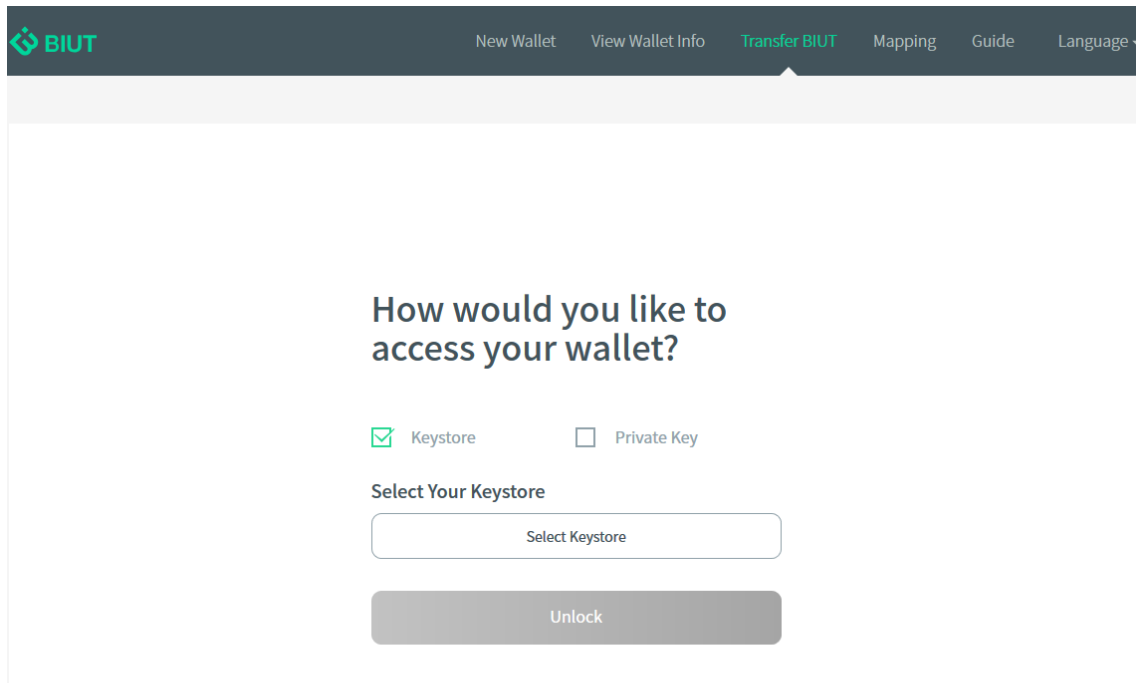

Notice:

1. If the submitted ETH transfer hash value does not match the transferred ETH address, the mapping request cannot be submitted.
2. Do not submit mapping requests repeatedly.

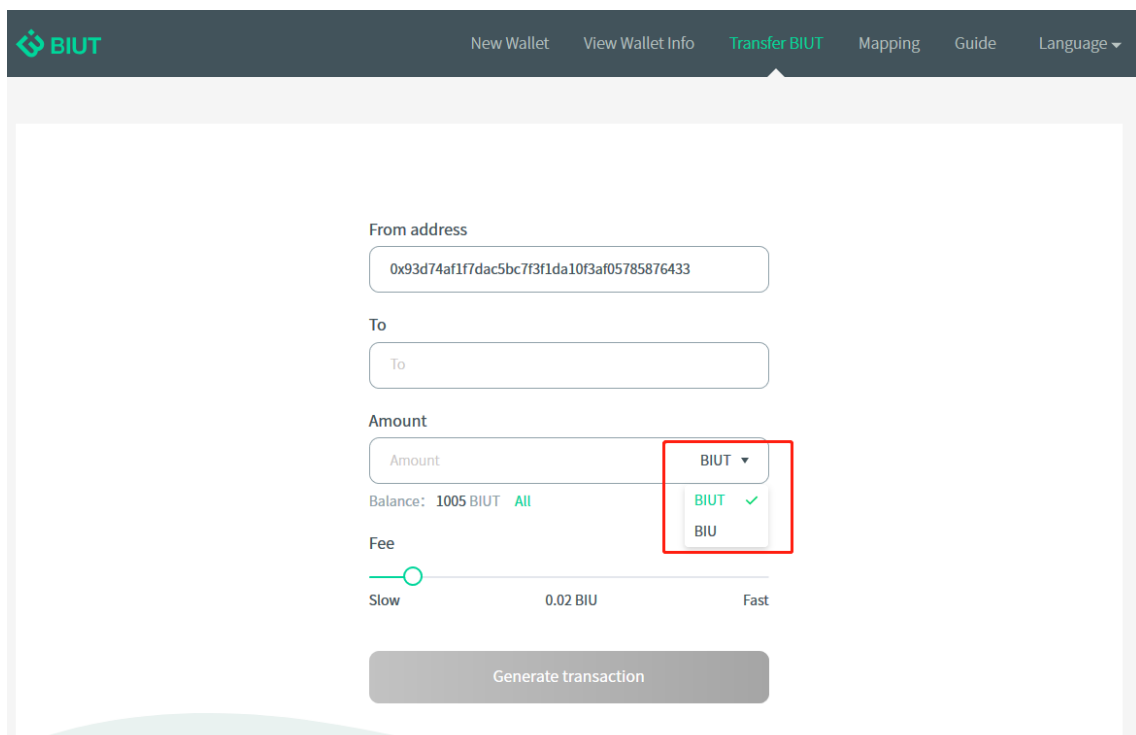

6 Transfer BIUT

1. Unlock the wallet by either Keystore or Private Key

The screenshot shows the BIUT wallet interface. At the top, there is a navigation bar with the BIUT logo and links for 'New Wallet', 'View Wallet Info', 'Transfer BIUT' (which is highlighted), 'Mapping', 'Guide', and 'Language'. The main content area has a heading 'How would you like to access your wallet?'. Below this, there are two options: 'Keystore' (selected with a green checkmark) and 'Private Key' (unselected with a grey square). Under the 'Keystore' option, there is a button labeled 'Select Your Keystore' and another button labeled 'Unlock'.

2. After confirming the transfer and transfer to BIUT's wallet addresses, type, balance amount and other information, click on generate transaction. (The system default gas price and you can be modified as needed)

The screenshot shows the BIUT wallet interface for generating a transaction. At the top, there is a navigation bar with the BIUT logo and links for 'New Wallet', 'View Wallet Info', 'Transfer BIUT' (which is highlighted), 'Mapping', 'Guide', and 'Language'. The main content area has a heading 'From address' with a text input field containing '0x93d74af1f7dac5bc7f3f1da10f3af05785876433'. Below this, there is a heading 'To' with a text input field containing 'To'. Under the 'Amount' heading, there is a text input field containing 'Amount'. To the right of this field, there is a dropdown menu with 'BIUT' selected. Below the 'Amount' field, there is a balance display showing 'Balance: 1005 BIUT' and 'All'. Below the balance display, there is a heading 'Fee' with a slider control. The slider has a green circle at the 'Slow' end, a green line, and a green circle at the 'Fast' end. The value '0.02 BIU' is displayed in the center. At the bottom, there is a button labeled 'Generate transaction'.

3. Please confirm the above information: Cancel if there is an error; Confirm if it is correct.

The screenshot shows the BIUT Transfer interface. At the top, there is a navigation bar with the BIUT logo and links for 'New Wallet', 'View Wallet Info', 'Transfer BIUT' (highlighted), 'Mapping', 'Guide', and 'Language'. Below the navigation bar, there is a 'From address' field containing the address '0x93d74af1f7dac5bc7f3f1da10f3af05785876433'. A modal window titled 'Confirm the following information' is displayed in the center. It contains a table with the following data:

Order information	Transfer
Receive	0xb8e1363a3c88bd6c73f16ed1350b271f74fa06af
Sent	0x93d74af1f7dac5bc7f3f1da10f3af05785876433
Gas Price	0.02 BIU
Amount	7 BIUT

Below the table are two buttons: 'Cancel' and 'Confirm'. At the bottom of the screen, there is a large green button labeled 'Generate transaction'.

4. This page shows “operate successfully”, you can click on URL to check whether to transfer BIUT successfully. Under normal circumstances, all can be successful.

The screenshot shows the BIUT Transfer interface after a successful transaction. The 'From address' field still contains '0x93d74af1f7dac5bc7f3f1da10f3af05785876433'. The 'To' field now contains '0xb8e1363a3c88bd6c73f16ed1350b271f74fa06af'. A modal window titled 'Operation success, click the URL below to view the results:' is displayed in the center. It contains a green checkmark icon and the following text:

Operation success, click the URL below to view the results:
<http://scan.secblock.io/sen/accountdetails?address=93d74af1f7dac5bc7f3f1da10f3af05785876433>

Below the modal window, there is a 'Fee' section with a slider. The slider is positioned at '0.02 BIU' between 'Slow' and 'Fast' options. At the bottom of the screen, there is a large green button labeled 'Generate transaction'.
